Responsible Organizations Management
For Sustainable Transitions

ABOUT US

As project coordinator, ISM-IAE / UVSQ (Université Paris-Saclay) plays a central role in the academic and strategic design of the program. With recognized expertise in responsible management, sustainability, and social transitions, ISM-IAE / UVSQ has extensive experience in interdisciplinary research and international cooperation. It contributes strong competencies in ecological governance, ethical management, and public policy analysis, ensuring the academic coherence and European positioning of the future Master's programme.

> [Learn more about ISM-IAE.](#)

ISM-IAE is strongly committed to the internationalization of its programs and to enhancing the global experience of its students and staff. The school welcomes nearly 20% international students and each master's program includes a one-week seminar abroad to foster professional openness in an international context. With 26 international partnerships, ISM-IAE promotes both incoming and outgoing mobility for students and faculty, and offers a fully English-taught Master's program in International Business. In addition, the institution develops international research collaborations and provides

dedicated support to international students for their administrative procedures.
